Hiring Manager
Ministry of Natural Resources — Science and Research Branch
1235 Queen St E, Sault Ste. Marie, ON
Re: Administrative Assistant — Job ID 242931

Dear Hiring Manager,

I am applying for the Administrative Assistant position with the Science and Research Branch (Job ID: 242931). I am a Sault Ste. Marie resident, I hold a Bachelor of Computer Science from Algoma University, and I have experience in administrative coordination, records management, and professional communication. I am confident I can provide the organized, reliable support your team needs.

Administration, Judgment, and Time Management

As Vice President of the Algoma University Muslim Students Association, I was the person responsible for managing all correspondence going in and out of the organization. That meant reading incoming messages, deciding what needed an immediate response, what needed to go to someone else, and what could wait — and making those calls correctly, every day. I coordinated meeting schedules and event logistics for the executive team, and I regularly had to juggle multiple deadlines at once. When things came in at the same time, I prioritized based on urgency and impact, not just whoever asked first. I also managed sensitive student documentation, including immigration-related files, which required me to be careful, accurate, and discreet. At Peavey Industries, I spent two years handling a busy environment with competing demands, transactions, shipment records, customer issues and learned to stay organized and keep good judgment even when things got hectic.

Communication and Interpersonal Skills

I write clearly and proofread carefully before anything goes out. In my VP role, I drafted official communications, event materials, and internal reports, always checking grammar, formatting, and tone before distribution. Verbally, I am comfortable communicating with people at all levels, whether that is a student asking for help, a faculty advisor giving direction, or a vendor on the phone at work. I have also led collaborative team projects, which means I know how to delegate, follow up without micromanaging, and keep a group aligned toward a shared goal.

Computer and Analytical Skills

My Computer Science degree gave me real hands-on depth with Word, Excel, PowerPoint, and Outlook, as well as database tools including Microsoft Access and SQL. I am familiar with SharePoint and Teams from academic and organizational work. In my IT Specialist role, I maintained digital records systems, checked data for accuracy, and prepared written summaries for management — work that maps directly onto the document preparation and records management responsibilities in this role.

I am genuinely drawn to this role because of the kind of work the Science and Research Branch does — research that shapes how Ontario manages its land, water, and wildlife. The fact that the team expands significantly during the field season, and that no two days are the same, is something I find appealing rather than daunting. I am the kind of person who does well when things are busy and varied. Thank you for your time. I look forward to the opportunity to speak with you.

Sincerely,
Talha Naeem

SUMMARY

Organized and dependable administrative professional with a background in office coordination, correspondence management, customer service, and IT systems. I hold a Bachelor of Computer Science from Algoma University and have worked across roles that required me to juggle competing priorities, communicate across different levels of staff, and get things done accurately under a deadline. I am comfortable with the full Microsoft Office suite, have experience managing records and documentation, and bring genuine attention to detail to whatever I am working on. I am looking to contribute those skills to a team doing meaningful public service work.

CORE SKILLS

- Managing correspondence and routing requests to the right people on time
- Drafting, formatting, and proofreading professional documents and reports
- Coordinating scheduling, travel arrangements, and appointments
- Proficient in Microsoft Word, Excel, PowerPoint, Outlook, Teams, and SharePoint
- Working independently with good judgment on when to act and when to escalate
- Keeping organized filing and records systems — both digital and paper-based
- Budget tracking and reconciliation using Excel spreadsheets
- Communicating professionally with internal staff, senior leadership, and external contacts
- Research and information gathering to support briefing notes and background materials
- Bilingual capability — English fluent; multilingual communicator in diverse environments

WORK EXPERIENCE

Vice President | Algoma University Muslim Students Association
Sault Ste. Marie, ON January 2024 – April 2025

- Handled all inbound and outbound correspondence for the association, making sure messages reached the right people promptly, and that urgent matters were flagged right away
- Coordinated meeting schedules, event logistics, and appointments for the executive team and faculty advisors, keeping everyone on the same page
- Drafted and proofread official communications, event announcements, and internal reports before distribution
- Led group projects by assigning tasks, checking in on progress, and stepping in to keep things moving when timelines were at risk

Backend Developer & Administrative Support | Algoma University Business Society
Sault Ste. Marie, ON 2024

- Maintained website content and kept organizational records current and accurate
- Prepared written summaries and progress reports for faculty and external stakeholders
- Coordinated between working groups to track deliverables and flag anything falling behind schedule

Customer Service Representative | Peavey Industries Ltd.
Sault Ste. Marie, ON October 2022 – September 2024

- Responded to a high volume of customer inquiries by phone, email, and in person — staying professional and calm even during busy periods
- Processed transactions and maintained accurate records for shipments, purchase orders, and inventory
- Used good judgment to resolve customer issues on the spot, and knew when to bring something to a manager's attention
- Kept filing systems organized so information could be found quickly by anyone on the team

Supervisor | AAA Landscaping
Sault Ste. Marie, ON May 2023 – September 2025

- Planned and assigned daily work for a crew of up to six, adjusting priorities on the fly when conditions changed

- Gave management clear verbal and written updates on what was getting done and what needed attention
- Made independent calls on how to handle unexpected situations rather than waiting to be told

IT Specialist & Administrative Coordinator | AUSPAK International (Pvt) Ltd.

Sialkot, Pakistan, September 2021 – July 2022

- Maintained organized digital records, filing systems, and documentation for the organization
- Prepared technical summaries and management reports on system status and recurring issues
- Handled data, files, and correspondence with attention to confidentiality and accuracy
- Reviewed student documentation — certifications, offer letters, and degree transcripts — for accuracy and completeness before submission
- Handled sensitive student immigration and enrollment matters with care and discretion

CERTIFICATIONS & TECHNICAL SKILLS

- Microsoft Office Suite: Word, Excel, PowerPoint, Outlook — proficient
- SharePoint, Teams, Google Workspace — familiar
- HTML, CSS, JavaScript — web content management
- Microsoft Access 2019, Introduction to SQL, Essential SQL (NASBA Certified)
- CompTIA Security+ Training — information security and data privacy
- First Aid / CPR Certified
- WHMIS Certified
- Health & Safety Certificate
- Valid Full G Driver's Licence

EDUCATION

Bachelor of Computer Science | Algoma University

Sault Ste. Marie, ON September 2022 – August 2025

- Dean's List — September 2022
- Coursework included database management, systems analysis, project management, and technical writing
